

DIGITAL FORMS

The Paperless Solution for a Mobile Workforce

Demonstration
The operator is required to manoeuvre the aerial work platform to given access to 3 pre-established locations. This task must be done smoothly and without incident. In accomplishing this task, the operator will display a clear understanding of the Aerial Platform and its controls.

	Competent	Needs Training
Operator possesses current applicable training qualification (Certified). This includes but may not be limited to AWP training and fall protection training.	<input checked="" type="radio"/>	<input type="radio"/>
Operator has observed the fall protection to the appropriate anchor point.	<input checked="" type="radio"/>	<input type="radio"/>
Operator successfully manipulates AWP to the pre-established manner points without incident. Operation is continuous and smooth.	<input checked="" type="radio"/>	<input type="radio"/>
Operator maintains 3-point contact when ascending and descending equipment.	<input checked="" type="radio"/>	<input type="radio"/>
Operator's climbing AWP have secured fall zones and are aware of equipment swing radius.	<input checked="" type="radio"/>	<input type="radio"/>
Operator avoids exposing himself and/or other occupants from placing their body parts in potential pinch point situations.	<input checked="" type="radio"/>	<input type="radio"/>

Competency Evaluation
The competency evaluator must rate the operator's knowledge and competency on the place of skill questioning. This evaluation is not to supersede formal training requirements on specified pieces of equipment.

Final Competency Assessment

Dynamic Digital Forms for All Your Assessment, Validation, & Audit Needs

Drag-and-drop functionality allows you to easily design digital forms that fulfill your company's needs. Add logic rules to each form checkbox and dropdown menu, which depending on the answer selected, will dynamically reveal or hide other form fields. You can even allow forms to work in conjunction with the Training Matrix to automatically add required training to user accounts based on the fields selected.

Form Types

Create hundreds of customized forms, including:

Competency
Validations

Incident
Investigations

COR
Audits

Hazard
Assessments

Equipment
Inspections

Advanced Form Builder

Our advanced form builder incorporates innovative drag-and-drop technology, allowing you to build and administer any form online.

Each form can include:

Checkboxes

Images

Electronic Signatures

Drop-down Menus

Videos

Calculated Fields

Likert Scales

File Uploader

Open Text Fields

Automated Alerts

Using our technology, you can set the frequency at which each form must be completed. Once the frequency is set, automated notifications are sent to specified personnel in advance of the due date. Should a due date be missed, escalating notifications can be sent to help get your team back on track.
