Expand Your Service Offering

By becoming a BIS Safety Software Network Partner, you can expand the service offerings of your business without having to undertake the expensive and time consuming task of developing the courses, creating the secure ecommerce system, or building the EHS software. We offer a solution that provides everything you need to get started today!

You can start offering your clients over 1,800 online courses. You get commissions on every sale! Plus, you can also become a software reseller. If you sign up new clients to use the BIS Safety Software EHS software or if you introduce our sales team to potential clients, you can earn even more ongoing commissions!

Benefits of Partnership

Global Reach

Using this program you can offer online safety courses to people from all over the world directly from your branded store.

Growing Library of Courses

Your store can be regularly updated with new courses as they become available. Automatically or at your discretion.

Reporting

Access to email notifications and reporting that shows exactly which courses are selling and which users are completing the courses.

Passive Income

With a good ranking on the web, this store allows you to earn another stream of income.

With the Network Partner Referral Program You can also make introductions between our team and potential software clients and earn ongoing comissions if they become a client!

Marketing Exposure

When you become a Network Partner, our team will add you to our Network Partner landing page with a link to your website which helps with Search Engine Optimization (SEO).

The Features

Passive Income Streams

Collaborative Partnership

From the very beginning, our entire team is there to support you in becoming a successful Network Partner. Whether it is providing onboarding to get you off on the right foot, or giving technical support to the people who buy safety courses from you, we are committed to your success.

To qualify for the Network Partner Program you must offer safety training to the public.
